Neha Saraswat

PRODUCT · DESIGN · GTM

Design executive and builder with **20+ years** across fintech, enterprise commerce, conversational AI, and emerging ventures. I work at the intersection of product strategy, design, and go-to-market — leading 0→1 launches, platform transformations, and organisation-building across the US and India. I've designed AI-native products before the category had a name and consistently taken roles where the design problem and the business problem are the same thing.

EXPERIENCE

Head of Design — Virtual Expert Platform 2023 – 2025 Intuit

- Led design for Intuit's AI-native platform connecting customers to experts — reimaged around agentic, low-touch operating model
- Led **inception, pilot, and GA of CRM** across all QuickBooks SKUs; launched **appointment capabilities to 10K enterprise customers** at Intuit Enterprise Suite (July 2025)
- Restructured teams and workflows around AI-first architecture; replaced array of third-party tools with unified end-to-end platform

Group Product Design Manager — QB FP&A (0→1) 2021 – 2024 Intuit · Concurrently: Head of Design, QuickBooks Desktop & Online

- Built QuickBooks Financial Planning & Analysis from inception through GA — **first integrated planning product** in the QB ecosystem, launching within 6 months
- **First at Intuit** to design AI-native components for generative and agentic systems — acceptability, explainability, extendability before the patterns existed
- Created the segment map and business-stage framework that shaped product strategy; proposed SKU changes directly contributing to **Intuit Enterprise Suite**
- Concurrently led QB Desktop (flagship, ~\$2.9B revenue) — repositioned as premium offering; drove ~120K customer migration to QB Online

Design Manager III — Walmart.com & Assortment Platform 2020 – 2021 Walmart

- **Walmart.com:** Owned search, personalisation, PDP, help, and post-sale surfaces across web and three mobile apps during 3× COVID traffic surge;

AREAS OF FOCUS

PRODUCT

0→1 product development
AI-native & agentic design
Platform strategy
SKU & go-to-market

DESIGN

Systems thinking
Design systems
Design sprints
AI component design
Information architecture

LEADERSHIP

Org design & restructuring
Enterprise transformation
Cross-geography teams
Design capability building

DOMAINS

Fintech & SMB tools
Enterprise commerce
Conversational AI
CRM & expert platforms
Workforce management

METHODS

Generative research
Follow-the-user studies
Rapid prototyping
Vision storytelling
Futurecasting

EDUCATION

contributed to Walmart+ onboarding (now 11M+ members)

- **Assortment & Merchandising (0→1)**: Built platform replacing spreadsheet-driven processes — integrated demand, supply, pricing, and logistics data into streamlined buyer tools; reduced decision cycles from 5 weeks to ~1.5 weeks

Quarterly funnel lifts

Director of Design — Studio Leader

2019 – 2020

Incedo

- Led multi-client design studio — multi-vendor delivery, quality governance, and UX standardisation across platforms

Director of Design — Conversational AI Platform

2016 – 2019

[247].ai

- Unified fragmented acquired products into a coherent **Customer Engagement Cloud** and Customer Acquisition Cloud on a shared data warehouse
- Built design system ground-up as shared language across isolated product teams; ran all organisation-wide design sprints; developed a digital twin for enterprise migration planning
- Predated mainstream AI product discourse — designed for AI-human handoffs, agent-assisted operations, and multimodal customer engagement before the field named these patterns

Head of Design, India Operations

2016 – 2024

Intuit · Walmart · [247].ai · ran concurrently with product roles above

- Grew India design teams from **17 to 62 designers** across three organisations — seeded product teams, built career tracks, and established design as a viable profession in enterprise tech
- At Intuit: built 50+ designer community across product teams; convened and led **#D4** — Intuit India's design conference ("Design for Delight"), 5 editions, NPS 80+
- Built talent pipelines, mentorship structures, and culture that outlasted each tenure; several mentees moved into leadership and founded independent studios

Earlier Career

2005 – 2016

JiffleNow · Lumium Innovation (Norwest VP) · Tech Mahindra · Fuego Furniture · Sri Design

- Led 0→1 design for JiffleNow (Meeting Automation Platform); built UX team at Lumium; designed enterprise products at Tech Mahindra for Philippines, UK, NZ, and Malaysia; earlier industrial and product design roles
- Won best paper award (CAUE 08 / IndiaHCI) on quantification of user experience

M.Des — Product Design

National Institute of Design
Ahmedabad

Thesis: Bus Design for KSRTC, Bangalore

B.Arch — Architecture

NIT Raipur

(Ravishankar Shukla University)

Best thesis of the year — "Designing with archetype: city center at Indore"

COMMUNITY & RECOGNITION

Spoke at CAUE, UXIndia, DesignUp, UXDX, Future Trends (Miami), LTUX

Innovation Catalyst Trailblazer (Intuit) — trained 40 catalysts/year

Convener, Intuit India Design Internship — ~20% of total hires over 4 years
